

CANTINAIQ — SLURPINI PARTNER INTELLIGENCE

Map the rubric to the evidence.

A one-page index. Each criterion points to a section in the strategy brief PDF and to a file in the repo. Use this to confirm coverage without reading 19 pages.

If you only have five minutes — the three ADA deliverables

BRIEF REQUIREMENT	LIVES IN
(i) Crawler extension	bare/crawler-extension.py
(ii) EDA + analysis	bare/notebooks/slurpini-analysis.ipynb
(iii) Written recommendation	bare/recommendation.md

Rubric mapping

CRITERION	STRATEGY BRIEF PDF	REPO / DASHBOARD
Business framing of the problem	§03 From the Field · p5	supercharged/PRD.md
Crawler extension as deliverable	§07 Beyond the Brief · p14	bare/crawler-extension.py
Exploratory data analysis	§02 Vivino in Context · p3-4	bare/notebooks/slurpini-analysis.ipynb · /matrix
Data cleaning + validation	§06 The Methodology · p13	supercharged/reports/generated/data-quality.md
Scoring methodology, transparent	§06 The Methodology · p12	supercharged/reports/generated/methodology.md · /methodology
Written recommendation, decision-ready	§05 The Recommendation · p10-11	bare/recommendation.md · /recommendation
Top-5 producers + regions ranking	§05 The Recommendation · p11	/producers · /regions
Confidence intervals on the ranking	§02 · p4 · §07 · p15	supercharged/reports/generated/bootstrap-ci.md · /stability
External validity / bias quantification	§02 · p4 · §07	supercharged/reports/generated/bias-report.md · /bias
Reproducibility (config-hash, audit)	§06 · p13	supercharged/ · make demo
Sensitivity to parameters	§07 · p15	supercharged/reports/generated/sensitivity.md
Anomaly detection	§07 · p15	supercharged/reports/generated/anomalies.md
Tests + schema contracts	§07 · p16	supercharged/tests/ · make test
Dashboard / live data product	§07 · p16	cantinaiq.clubventure.nl
Responsible-AI reflection	§08 Closing Observation · p17-18	—

REPO github.com/vincentblokker/CantinaIQ **LIVE** cantinaiq.clubventure.nl **RUN** `make setup && make demo`
